

IN THE CLAIMS

Please amend the claims as follows:

Claims 1-11 (Canceled):

Claim 12 (New): A method of treating rosacea in a human in need thereof comprising administering a pharmaceutical composition comprising

a compound and at least one additive

to the human in need thereof in an amount sufficient to treat the rosacea,

wherein the compound inhibits the secretion of at least one interleukin selected from the group consisting of interleukin 5, interleukin 6, and interleukin 10, and

wherein the compound is not metronidazole.

Claim 13 (New): The method of claim 12, wherein the compound is at least one compound selected from the group consisting of Nisoldipine, SB203580, PD98059, U0216, Chloroquine, a 4-phenylthiazole, 1-[6-((17beta-3-methoxyoestra-1,3,5 (10)-thien-17-yl)amino)hexyl)-1H-pyrrole-2,5-dione, wortmannin, bisindolylmaleimide, bisindolylmaleimide X1 HCl, 2'-amino-3'methoxyflavone, 4-(4-fluorophenyl)-2-(4-methylsulfinylphenyl)-5-(4-pyridyl)-1H-imidazole, the combination of Ro20-1724 and theophylline, AS101, and combinations thereof.

Claim 14 (New): The method of claim 12, wherein the compound inhibits the secretion of at least two interleukins selected from the group consisting of IL-5, IL-6, and IL-10.

Claim 15 (New): The method of claim 12, wherein the administering comprises topically applying the pharmaceutical composition.

Claim 16 (New): The method of claim 12, wherein the rosacea comprises four stages, and wherein the treating comprises treating at least one of the four stages of the rosacea.

Claim 17 (New): The method of claim 16, wherein the treating comprises treating the first stage of rosacea.

Claim 18 (New): The method of claim 16, wherein the treating comprises treating the second stage of rosacea.

Claim 19 (New): The method of claim 16, wherein the treating comprises treating the third stage of rosacea.

Claim 20 (New): The method of claim 16, wherein the treating comprises treating the fourth stage of rosacea.

Claim 21 (New): The method of claim 12, wherein the pharmaceutical composition comprises from 0.0001% to 20% by weight of the compound.

Claim 22 (New): The method of claim 12, wherein the pharmaceutical composition comprises from 0.1% to 2% by weight of the compound.

Claim 23 (New): The method of claim 12, wherein the pharmaceutical composition comprises from about 0.75% to 1% by weight of the compound.

Claim 24 (New): The method of claim 12, wherein the at least one additive comprises an active agent selected from the group consisting of an antibiotic, an antibacterial agent, an antiviral agent, an antiparasitic agent, an antifungal agent, an anaesthetic, an analgesic, an antiallergic agent, a retinoid, a free-radical scavenger, an anti-pruriginous agent, a keratolytic agent, an anti-seborrhoeic agent, an antihistamine, a sulfide, an immunosuppressant, an antiproliferative agent, and combinations thereof.

Claim 25 (New): The method of claim 12, wherein the at least one additive is selected from the group consisting of at least one sequestrant, at least one anti-oxidant, at least one sunscreen, at least one preserving agent, at least one filler, at least one electrolyte, at least one humectant, at least one dye, at least one common mineral acid, at least one common organic acid, at least one common mineral base, at least one common organic base, at least one fragrance, at least one essential oil, at least one cosmetic active agent, at least one moisturizer, at least one vitamin, at least one essential fatty acid, at least one sphingolipid, at least one self-tanning compound, at least one skin calmative and protective agent, at least one pro-penetrating agent, at least one gelling agent, and mixtures thereof.
